Dear Mima,

The All Nations Fountain of Blessing Appeal

All Nations Christian College is situated on Easney Estate, in the house where the philanthropist Burton Family lived, in 1880 Herts. Burton hoped that it would become the 'Fountain of Blessing in the Church'.

153 years later and God is still fulfilling this prophesy through the people who come here to be equipped for cross-cultural mission at the Fountain of Blessing that is All Nations, and then go on to serve all the nations. We operate as a not-for-profit charity and aim to make our training as accessible as possible to those God is calling into mission life and work.

This means keeping our tuition fees consistently low. However, tuition fees do not cover the full operating costs of the College. There is a gap in our budget every year and we rely on the kindness and blessing of donors and supporters to meet this gap.

Hence the launch of our Fountain of Blessing Appeal.

Would you consider being part of the 'Fountain of blessing' by financially supporting our work?

Our target this year is £150,000

[Donate online >](#)

We want to continue being a blessing to God's multicultural, hurting world for many years to come, but we need your help to do this. Will you partner with us to ensure the Fountain of Blessing continues to flow?

Together, with your support, we can continue in His mission to save lives and transform nations. Whatever you can give to support our appeal is highly appreciated.

Each and every contribution, no matter how small, makes a difference.

The need is real, it's necessary and it's fundamental to enabling us to meet our role in God's mission.

Two ways to give

1. By text

To give up to £20 text **BLESSING** followed by your card number to a spare, and the amount to **7065**. For example, to give £20 text BLESSING 20 111

2. Online

To give any amount visit our [Blessing Page](#) or donate online using the [Donate](#) button below.

Thank you so much for your prayers and support.

Dear John,

I wanted to let you know about our work with a leading designer and manufacturer, I believe it could be of interest to your business.

RedKite Recycling was asked to explore fit for purpose solutions for Mann+Hummell, and review with them their direction of travel.

Why they chose us

Mann+Hummell recognised our extensive expertise and appreciated how we focus on collaboration with specialist waste processors around the UK to provide a truly tailored and cost effective approach to needs.

Results achieved

Were numerous spanning both financial and strategic benefits. Such as zero to landfill across all their sites, labor savings and a significant increase to the value of the rebate, as well as a much cleaner process with less risk of hazardous spills.

The full case study is available on the link below. Do take a few minutes to read the full case study, including their glowing testimonial.
